Primary Examiner

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

Response to applicants arguments dated 8-25-03.

Applicant remarks have been fully considered but are not deemed persuasive, in overcoming the prior art of record. The examiner is convinced that the prior art of Puranda discloses a hub member 52 which is capable of rotating an element 28 of station (16) which is positioned above and rides along a top end of element (58).

Puranda discloses no locking mechanism which would prohibit rotation of element 52. The applicant's assumption could possibly be correct, however the disclosure of Puranda fails to disclose means to support applicant's assumptions.

Claims 7-10 are allowed.

Claim 5 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Art Unit: 3764

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-4 and 6 are rejected under 35 U.S.C. 103(a) as being unpatentable over Puranda.

Claims 1-4 and 6 are rejected for the same reason as set forth in the rejection of the same in the office action of 4-23-03.

Any inquiry concerning this communication should be directed to Jerome W Donnelly at telephone number 308-2668.
